Overland Park, KS and Melbourne FL – May 6, 2008 – Swiss Re's Commercial Insurance and BISYS Specialty Programs (a division of Crump Insurance Services, Inc.), today announced the launch of an insurance program for auto dealers. Backed by the world-class financial strength of Swiss Re and the industry expertise of BISYS, this program offers high quality coverage and security for auto dealers who meet underwriting guidelines.

Swiss Re and BISYS recently reached the one year anniversary of their joint offering of insurance coverage for tow truck operators. The new auto dealer offering builds on the success of that partnership.

"Swiss Re has insured auto dealers for years and BISYS was a natural choice for re-launching our dealer facility," said Brian Evans, Programs business leader of Swiss Re's Commercial Insurance. "Auto dealers will benefit from policies underwritten by Swiss Re companies and backed by Swiss Re's financial strength.

"We are pleased to have the opportunity to offer another new program through our partner, Swiss Re," said Mike Oliver, senior vice president of BISYS Specialty Programs. "The auto dealers Program allows us to enter a new business segment and broaden our range of coverage solutions for our retail agents."

The program provides specialty underwriting for a full complement of insurance coverage for auto dealers. It entertains risks for franchised or non-franchised retail auto dealers, auto auctions, wholesale dealers, including those with service garages and body shops. Coverage includes commercial auto liability, physical damage, garage liability, garage keepers, dealers open lot, inland marine, crime and property.

An added benefit of this new program is a paperless submission process that allows agents to utilize electronic, fillable applications.

All submission requirements and applications are available online at www.BISYSPC.com.
